

## Quality Policy

**“It is the Policy of Magal AWT to supply our customers with Products and Services that totally satisfy their requirements, and to continually improve our business performance.”**

To achieve this:

- We commit to meet all the requirements of our Quality Management System, all our customer specific requirements and all of our statutory and legislative requirements.
- We will set challenging Business Objectives and Targets and review progress towards achievement of them using dedicated Key Performance Indicators. We will communicate this progress throughout the business.
- We will engage and motivate each other by communicating the relevance and importance of all our activities, and the contribution they make in achieving our business objectives.
- We will regularly review our Quality Management System to demonstrate, and continually improve, its effectiveness.

S Bamber  
Managing Director
